

Watersprint AB Acquires Acuva Technologies' Assets, Ensuring Continued Supply for Valued Customers

Lund, Sweden, January 13, 2025 – Watersprint AB, a leading provider of cutting-edge UVC LED water disinfection technology, is pleased to announce the acquisition of all assets of Acuva Technologies, including intellectual property, following the recent bankruptcy of Acuva. Acuva Technologies, a Canadian company known for the patented IntenseBeam™ Technology, is recognized globally for its advanced, energy-efficient UVC LED water purification systems.

This strategic acquisition will allow Watersprint to continue producing the innovative water treatment products that Acuva's customers have come to rely on.

"This acquisition strengthens Watersprint's position in the global water treatment market. By incorporating Acuva's technology into our portfolio, we are better equipped to meet the diverse needs of our customers in the global residential point of use and point of entry markets as well as many OEM applications such as bottle filling, water dispenser, and recreational vehicle (RV) markets", says André Carlsson, CEO of Watersprint.

Continuing Customer Support

Watersprint recognizes the importance of maintaining the trust and loyalty of Acuva's customers and is committed to ensuring a seamless transition. The goal is to continue the production and supply of the products needed. The technical support and customer service teams are ready to assist with any inquiries, ensuring that all customers continue to receive the same high level of service they are accustomed to.

"I am thrilled to join the Watersprint team and continue advancing the innovative solutions that Acuva has been known for," says Babak Adeli, former VP of Research & Development at Acuva. "Seeing Acuva's achievements live on within Watersprint is

incredibly gratifying. This acquisition allows us to enhance our offerings and reach new heights."

A Future of Innovation and Growth

As a company that prides itself on pioneering UVC LED water disinfection technology, Sweden-based Watersprint will leverage this acquisition to further expand across Europe and North America.

"We are excited to continue the legacy of Acuva's innovations and integrate their offerings into our broader portfolio," says Tove Janzon, Chair of the Board. "This acquisition not only broadens Watersprint's product portfolio but also brings in advanced and complementary technology along with a new customer base. The board is confident that this strategic move will enhance our market position and drive future growth. We are glad to welcome Acuva's customers to Watersprint and assure them that our team is dedicated to ensuring a smooth transition. Customers can continue to depend on the same innovative products, now with enhanced support and advancements. Moreover, we are thrilled to have experienced staff from Acuva join our qualified team at Watersprint. Together, we will drive forward with a shared vision and enhanced capabilities."
