Acuva ArrowMAX™ Home 10K

Smart Whole House Water Disinfection System

Pure water for your entire home, made simple. The Acuva ArrowMAX™ Home 10K is a whole-house UVC LED water disinfection system designed for reliable performance and effortless maintenance. Enjoy microbially safe water at every tap with the ArrowMAX™ Home 10K.

Ready for installation at your main water inlet, the ArrowMAX™ Home 10K provides superior disinfection, ensuring microbially safe water throughout your home. Utilizing advanced IntenseBeam™ (UVC LED) Technology, the system effectively inactivates bacteria, viruses and other contaminants, providing reliable protection for your family.

Combining thoughtful design with optimized UVC LED technology, this system ensures effective disinfection and long-term reliability. It's easy to install, requires minimal maintenance, and operates efficiently. With integrated Wi-Fi monitoring and mercury-free LEDs, it provides a safe, sustainable, and cost-effective solution.

Instantaneous and Worry-Free

The ArrowMAX™ Home 10K offers the advantages of advanced UVC LED technology:

- Safe: Mercury-free for family and environment.
- Easy: Simple, hassle-free maintenance.
- Durable: Built for extended performance.
- Long-Term Reliability: Delivers consistent disinfection for years to come.

Effortless Water Management with Smart Connectivity

Manage your water purification system effortlessly with the ArrowMAX™ Home 10K. Bluetooth and WiFi connectivity enable seamless data transfer to a convenient mobile app, providing real-time insights into factors such as UVC LED performance, water flow, and power usage. Whether you're online or offline, you'll have access to system data, along with timely notifications for maintenance needs.

On-Demand Water Disinfection, Minimal Energy Use

Enjoy truly hassle-free ownership with the ArrowMAX™ Home 10Ks minimal maintenance design. This innovative system operates only when water flows, maximizing energy efficiency and significantly extending its lifespan. Say goodbye to the inconvenience and expense of regular servicing, and hello to long-lasting, worry-free performance. The ArrowMAX™ Home 10K is designed to provide years of reliable service with minimal effort from you.

Unique IntenseBeam™ Technology

Acuva's IntenseBeam™ UVC LED technology uses advanced optics and patented cooling for powerful, reliable water treatment in your home. Simplified installation and on-demand operation maximizes efficiency and extends system life, ensuring microbially safe water whenever you need it.
